Dear Valued Patient,

We hope this letter finds you well. We're reaching out to let you know that Joseph Berger, III, D.O., will be concluding his time with the Freestone Health Clinic on October 17, 2025.

Dr. Berger has cared for many patients during his time here, and we're grateful for his many years of service to the Freestone community. As his chapter with our clinic comes to a close, we want to reassure you that our clinic remains fully open and ready to serve you. We have a dedicated team of providers on site who are fully prepared to continue your care without interruption.

Your health and comfort are important to us. If you would like to remain with the clinic, we would be happy to schedule you with one of our other trusted providers who are familiar with your medical history and committed to ensuring your care continues smoothly. If, however, you choose to transfer your care elsewhere, we will assist with that process as well.

Your medical records will remain securely on file at Freestone Medical Center and may be released or transferred at your written request. For assistance with scheduling, records, or care continuity, please contact:
